With its classic military styling, the Chelsea Wide Track envisaged and brought to life by Chelsea Truck Co. is a luxurious modern reincarnation of the iconic Land Rover Defender. The British design house retains the vehicle's utilitarian roots while adding new dimensions of comfort for city cruising. Built for those with a taste for exclusivity and the finer things in life, the Chelsea Wide Track exudes quality to the last detail.

EXTERIOR STYLING

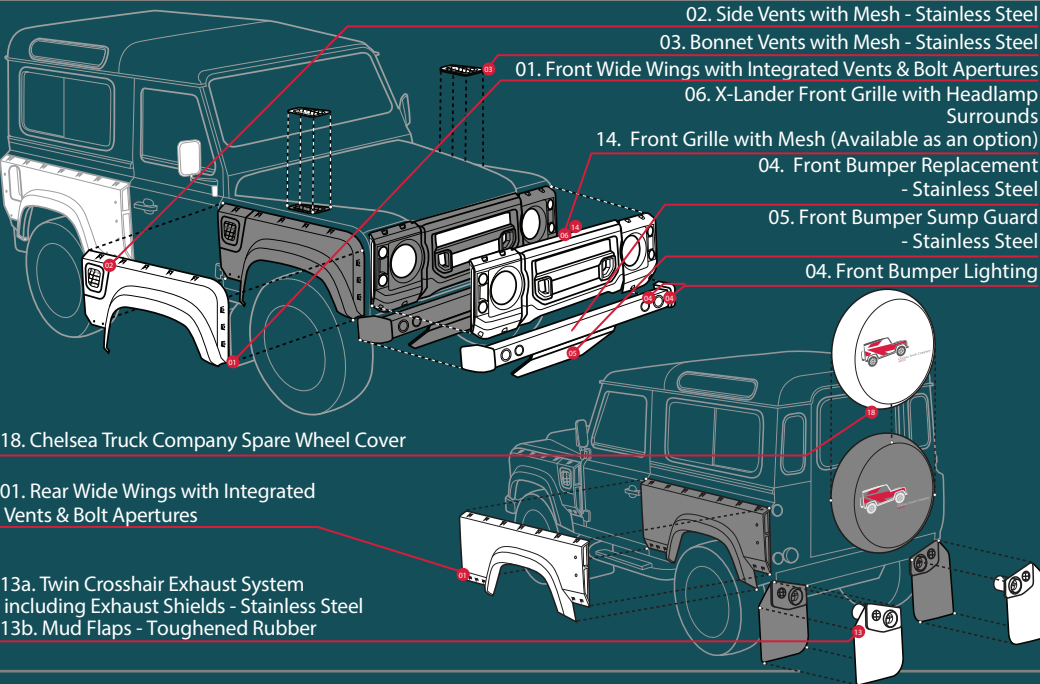

Chelsea Truck Company offers an array of exterior upgrades to customise the style and shape of your vehicle.

All our body components are precision designed by our team of 3D modellers and graphic artists to ensure a perfect fit to the Land Rover Defender, and manufactured in the highest quality materials including carbon composite.

Our LED lighting kits are designed to make your vehicle stand out from the crowd, day or night. We offer a variety of options depending on the vehicle model, including headlamp options, daytime running lights, under floor lighting and even logo projection.

For the ultimate in personalisation, our "Colours of Kahn" Service allows you to commission a full professional respray of your chosen vehicle in a colour of your choice.

INTERIOR STYLING

Chelsea Truck Company is famed for its luxurious bespoke leather interiors. We use only the finest quality materials - ensuring that our interior design work adds value and style to each vehicle. The clients we work with demand the ultimate in style, performance and comfort from their vehicles, and it's our mission not only to fulfil those demands, but to constantly strive to go further, to push the boundaries of automotive fashion, to create timeless modern classics.

Our creative team tailor the design of each of our leather interior packages to complement the style and spirit of each vehicle, creating a perfect match between the interior and exterior aesthetics. With a wide choice of leathers, fabrics, colours and stitching, including Harris Tweed, the options for personalising your vehicle are almost endless. For an even more personal touch, we provide a fabric matching service where we'll trim your vehicle to match any fabric sample you provide.

Each interior we design is upholstered by our expert team at our UK trim shop, to the exacting standards of British craftsmanship associated with the Chelsea Truck Company brand. Keeping this service in house allows us to guarantee our customers an unrivalled level of quality.

GTB SPORTS SEATS

Our sports seats package for the Land Rover Defender comprises both front and rear racing seats in quilted and perforated leather.

The hand-stitched seats are available in a range of choice colour combinations. In addition, we offer a fabric matching service where we will take any sample fabric you bring us and produce matching trim details for your bespoke seats.

To complement our bespoke GTB Seats seats we also offer a full interior upgrade consisting of hand stitched leather upholstery with optional fabric details to the dashboard, steering wheel and door panels.

ALPINE AUDIO UPGRADE

THE FLYING HUNTSMAN

COMING SOON

No designer has a better track record than Afzal Kahn when it comes to styling and refining the classic icon of British motoring that is the Land Rover Defender. This time, Kahn has applied his renowned skill for aesthetic modification right to the structural heart of the vehicle.

The new Defender, named the Flying Huntsman, has an extra 400mm of bodywork inserted into the elongated nose, just ahead of the windscreen. The engine, mounted close to the bulkhead, drives a six-speed automatic gearbox operated by push-button controls. An upgraded braking suspension system completes the engineering overhaul.

The Flying Huntsman is the first in an upcoming line of related models. The Huntsman marque signifies an aggressive aesthetic coupled with all terrain performance - a vehicle which can take you literally anywhere you need to go at speed and in comfort.

Why the "Flying" Huntsman? With a powerful 6.2-litre General Motors LS3 V8 generating an estimated 550bhp the explosive performance of the Flying Huntsman is a far cry from the stolid pulling power of the original Defender. Built to tame even the hardest terrain, this modern British icon is equally comfortable outrunning any roadgoing 4x4.

The exterior styling follows aggressive lines coupled with military style detailing such as the crosshair motif featured on the headlamps and exhausts. Both B4 and B6 armoured variants will be available, providing maximum security for the driver and passengers.

True to the Defender's British heritage, the Flying Huntsman has been designed and prototyped in Kahn's Bradford headquarters, and will be produced entirely in the UK. Pricing has yet to be confirmed, but is expected to be in the region of £150,000.

The redesigned silhouette, coupled with Afzal Kahn's renowned styling has produced a one of a kind vehicle which is as iconic as the original, but makes a more definite and lasting statement.

The Flying Huntsman is the superlative expression of the Land Rover Defender - tougher, faster and more recognisable than any of its contemporaries.
